CERTIFIED PRODUCT OWNER (CPO™)

Certified Product Owner demonstrate the knowledge and understanding of Scrum, Agile, DevOps, Kanban,Scrumban, Scaled, leadership skills, the Product Owner role and their ability to apply that knowledge in real-world situations.

INSTITUTE OF PRODUCT LEADERSHIP
CPO — CERTIFIED PRODUCT OWNER

WHY CERTIFIED PRODUCT OWNER (CPO™) ?

Advanced Agile Product Management Competencies

Going beyond the process & tactics of Scrum, Industry now expects Agile practitioners to have skills around business interlock, requirements prioritization, Agile at Scale & managing cross functional stakeholders.

Evaluating Skills through Live Challenges

Automated Evaluations (ex. Multiple choice quiz questions) are not well equipped to test applied skills. CPO Certification includes Live Problem Solving phase to raise the bar of certified practitioners.

KEY COMPETENCIES FOR CPO™

- User Story Mapping
- Release & Roadmap Mapping
- Agile metrics & tools
- Devops metrics & beyond
- Kanban tools & metrics
- Agile at Scale
- Backlog Grooming & Prioritization
- Scrum Ceremonies
- Stake Holder management

BENEFITS OF CERTIFICATION

HIGHER INDUSTRY VALUE

While most certification focus on automated quiz, CPO focus on demonstration of skills through live challenges.

GET INTO A STRATEGIC ROLE

CPO certification is a strong signal to employer for strategic career readiness.

GLOBAL BEST PRACTICES

Product owners are strategic roles who are expected to go beyond process execution to be the voice of the customer.

75% of global companies have adopted Agile as the defacto model of execution as part of their digital transformation.
